Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3,5-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Eckstein (5906336).

Eckstein shows a paratrooper 16 and the autopilot of the UAV with the input from the optical sensors controls the relative position of the two vehicles and second means is the latch of the probe and drogue.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 4,7,9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eckstein (5906336) in view of Mosher (3091419).

Mosher shows in col 5 lines 1-8 that the cable is used to control the tension between the host and second craft.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the cable control and retraction means of Mosher for

Art Unit: 3644

the hydraulic cylinder of Eckstein since it will provide for further control when the craft are connected.

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites the limitation "said cable" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Drawings
